Enterosecure BD Probiotic & Papaya

Dosage:

- a. For cats, small dogs and medium dogs - 1 tablet twice a day
- b. For large dogs - 2 tablets twice a day

- Natural digestive enzymes tablets: Vivaldis Enterosecure is a combination of all-natural ingredients, with no side effects. It's a dog supplement enriched with vegetative enzymes and probiotics that improve gut health and immunity of your pet. These help to break down food and secrete digestive enzymes that are conducive to maintain a healthy environment in the gastrointestinal tract.
- Enzyme based pet supplement: Vivaldis Enterosecure enzymes for dogs and cats contains Papain, an enzyme extracted from Papaya which helps the indigestion of protein in the body. Papain is rich in fibre and helps attack the parasitic worms present in the gut, which cause many health issues. It helps improve the balance of organisms in the gut, reduce an overzealous immune response, and reduces inflammation.
- Contains Three Prebiotics To Support Growth: Vivaldis Enterosecure dog and cat supplement is a perfect blend of healthy probiotics which ensures proper functioning and maintenance of the digestive tract. It contains bacterial strains like Lactobacillus and Saccharomyces, which maintain the count of good and beneficial bacterial and also further kills harmful bacteria in the stomach.
- Supplement for gut and immunity: This Vivaldis Enterosecure immune support cat and dog probiotics tablets helps in improving the health of the gastrointestinal tract and protecting the stomach by causing the excretion of toxins and harmful bacteria. It contains neem extracts that also exhibits anti-inflammatory properties, promotes digestive secretions, and prevent stomach and intestinal problems. It keeps your pets gut beneficial and working healthy.

Dosage:

- Chicken flavour Tablets that is easy to administer.
- For cats, small dogs and medium dogs - 1 tablet twice a day.
- For large dogs - 2 tablets twice a day.
