

# Canigest Combi

## For the maintenance of a healthy digestive system

Canigest Combi contains two EU approved Probiotic strains, combined with Prebiotics, Pectin, Kaolin and Glutamine Peptides. E. Faecium stabilises the internal gut flora of dogs and cats and L. acidophilus has potential to reduce the moisture of stools from dogs and cats receiving the additive.

## Instructions for Proper Use

Feed Canigest Combi directly into the mouth for up to 5 days or as directed by your veterinary surgeon. It can also be added to the feed.
