

Milko-Pup

Milko-Pup contains vitamins and minerals and the same proportions of fat and protein as bitch's milk and may be used as a milk replacer when necessary.

Milko-Pup may also be used as a nutrient for sick or convalescing animals. Milko-Pup also contains biotin, folic acid and fluoride (required for bone and teeth development) and is high in zinc (adequate amounts of zinc are important for healthy skin and coat).

Composition:

Each 10g contains protein (min) 2,75g, carbohydrates 4,7g, fat (min) 1,9g, vitamin A 250i.u., vitamin D15 3i.u., vitamin E 5i.u., vitamin B1 100mcg, vitamin B200 2mcg, nicotinamide 1,2mg, vitamin B150 6mcg, vitamin B 1,5 12mcg, calcium pantothenate 750mcg, choline bitartrate 2,5mg, magnesium 50mcg, iron 120mcg, copper 25mcg, manganese 30mcg, cobalt 10mcg, iodine 10mcg, biotin (vitamin H) 30mcg, folic acid 3mcg, fluoride 0,05mcg, sodium chloride 15mg, calcium 130mg, phosphorus 100mg, zinc 1 mg, moisture (max) 250mg, BHT (antioxidant) 1,2mg.

Calcium : Phosphorus ratio 1,3:1

Energy content per 10g: 190kj

Packing:

**250g with enclosed
5g measuring spoon**

Directions for use:

The mixture should be freshly prepared using lukewarm water for each feeding in a Kyrón Pet Nurser Kit. For ease of mixing, first make a paste using the required dose of Milko-Pup powder and an equal amount of water. Then add the rest of the water while mixing well (one part Milko-Pup to two parts water is the usual ratio).

	Small Breeds	Medium Breeds	Large Breeds
First 2 Weeks of Life	1/2 measure 2 -hr	1 measure 2-hr	1 ½-2½ measures 2-hr
3rdWeek	1 measure 4-hr	2½-3½ measures 4-hr	4-4½ measures 4-hr
4th Week	2 measures 4-hr	4 measures 4-hr	6-8 measures 4-hr

After 4 weeks of age the mixture should be made up as follows: one part Milko-Pup to three parts warm water.
