To celebrate the vitality of our dogs: **Josera FiestaPlus** ensures greater variety, not least thanks to two-coloured kibble. The red vitality booster chips in this adult dog food contain valuable vitamins plus taurine and L-carnitine to give our dogs an extra dose of vigour. The gluten-free dog food is now even tastier for our four-legged friends thanks to the flavour of salmon. The improved recipe also contains even more salmon protein than before.

Our Josera IMMUNE PLUS supports your dog's healthy immune system, while valuable fatty acids promote beautiful skin and a shiny coat. But that's not all: the crunchy, brown kibble also provide a unique taste experience thanks to the integrated gravy granules, which just require the addition of water to transform into a meal that will convince even the fussiest dog.
